MESSAGE FROM THE BISHOP

It is with great pleasure and gratitude that I pen down my words of compliments as we publish this magazine to mark the 26 years of excellence in the field of education in the soil of Chennai. Our institution has grown and evolved, becoming a beacon of knowledge, wisdom and excellence in education. Servant of God, Mar Ivanios, the founder of the Malankara Catholic Church and the visionary behind the establishment of our institution, had a profound vision for education. His vision was deeply rooted in the belief that education is not merely about acquiring knowledge, but about transforming lives and societies.

One of the key aspects of Mar Ivanios vision was the integration of faith and reason in education. He believed that education should not only stimulate intellectual growth but also nurture spiritual development. He envisioned an education system that would not only equip students with academic knowledge but also instill in them values of compassion, integrity, and social responsibility. Carrying forward this vision, our college has always been more than just a place of learning; it is a community, a family. It is a place where friendships are forged, ideas are exchanged, and dreams are nurtured. It is a place where we come together to celebrate our differences and learn from one another. Let us continue to inspire and empower the next generation of leaders, thinkers, and innovators.

I take this opportunity to congratulate Rev. Fr. Mathew Pallikunnel, the secretary, Dr. R. Srikanth, the Principal, the Vice Principals, the entire teaching and non-teaching staff for their continuous effort and tireless dedication. In a very special way, I appreciate the Editorial board and all who have contributed to this magazine through various forms of talents.

I pray and wish all the success to the MGC family. God bless you all!

Your Loving Aboon,
Mathews Mar Pachomios OIC
Bishop, Diocese of Khadki, Pune

MESSAGE FROM THE SECRETARY

Congratulations on the remarkable achievement of yet another edition of Gregorian 2024. My heartfelt appreciation for the outstanding work. From cover to cover, the magazine radiates creativity, talent, and a deep sense of community spirit. I remember the words from Philippians 4:13: “I can do all things through Christ who strengthens me.” The perseverance and faith have brought this magazine to life, and I do not doubt that your future endeavours will be equally blessed. As I went through the magazine, I couldn’t help but recall the words of William Shakespeare: “The eyes are the window to your soul.” The insightful articles and stunning visuals offer readers a glimpse into the diverse perspectives and rich experiences of our college community. The creativity of students of MGC knows no bounds. The magazine also showcases the journey of MGC, reflecting the achievements of the past year. It is evident that our institution has reached new heights and made significant strides in various aspects like academic excellence, innovative programmes and initiatives, community service, co-curricular and extracurricular activities.

Thank you, team, for your tireless efforts in producing the magazine. Your commitment to excellence is evident on every page. I believe the commitment and hard work will pave the way for the excellence of MGC in years to come.

Best Wishes…….
Rev. Fr. Mathew Pallikunnel,
Secretary

MESSAGE FROM THE PRINCIPAL

Dear Students, Faculty, and Staff,

It is with great pleasure and a sense of profound responsibility that I welcome you to the latest edition of our college magazine. This publication stands as a testament to the vibrant tapestry of talent, knowledge, and innovation that characterizes our esteemed institution. In the ever-evolving landscape of academia, we find ourselves at the forefront of change, continually adapting to meet the needs of our diverse community and the challenges of a dynamic world. As we navigate through these times of uncertainty and transformation, it is imperative that we remain steadfast in our commitment to excellence, integrity, and inclusivity.

Within the pages of this magazine, you will discover a kaleidoscope of voices, perspectives, and achievements that reflect the richness of our college community. From groundbreaking research to artistic endeavours, from academic achievements to community outreach initiatives, each contribution serves as a testament to the passion, dedication, and ingenuity of our students and faculty. As we celebrate our successes and reflect on our journey, let us also acknowledge the obstacles we have overcome and the lessons we have learned along the way. It is through perseverance and resilience that we have grown stronger, more adaptable, and more united as a community.

In the spirit of continuous improvement and lifelong learning, let us embrace the opportunities that lie ahead with courage, curiosity, and an unwavering commitment to excellence. Together, we have the power to shape the future and make a positive impact on the world around us. I would like to extend my heartfelt gratitude to all those who have contributed to the creation of this magazine – the writers, editors, designers, and countless others who have dedicated their time and talent to showcase the best of our college community. As we embark on this journey of discovery and exploration, let us remember that the true essence of education lies not only in the acquisition of knowledge but also in the cultivation of empathy, compassion, and a deep sense of responsibility towards others. May this magazine serve as a source of inspiration, enlightenment, and empowerment for all who have the privilege of perusing its pages. Together, let us continue to strive for excellence, push the boundaries of knowledge, and build a brighter future for generations to come.

With warmest regards,
Dr. R. Srikanth
Principal

MESSAGE FROM VICE PRINCIPAL - SHIFT-I

We live today in a world that is so different from the one we grew up in the one we were educated in. The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of education. Even as we impart education to match the advancement in technology and globalization, we march our children ahead with MGC ethos of moral values and principles. We endeavour constantly to instill these qualities in our children. We are proud of ourselves to help them grow and develop into sensitive and responsible citizens of the generation.

Teamwork is the hallmark of MGC. I am sure through collaborative effort; we can achieve more to benefit our students who are the future leaders of tomorrow.

MESSAGE FROM IQAC COORDINATOR

It is with great pleasure that the Internal Quality Assurance Cell (IQAC) extends warm greetings to all members of our academic community as we embark on another year of growth and achievement. As an integral part of our institution's commitment to excellence, the IQAC plays a vital role in ensuring quality enhancement and sustenance in various facets of our educational endeavours. As we reflect on the milestones achieved and the challenges overcome, we are reminded of the collective efforts and unwavering dedication of our faculty, staff, and students. It is through collaboration, perseverance, and a shared vision for excellence that we have been able to make significant strides in our journey towards academic distinction. In this magazine, you will find a reflection of our collective achievements, scholarly pursuits, and creative endeavours that exemplify the spirit of our institution. Let us reaffirm our commitment to excellence, innovation, and inclusivity in all our endeavours. Together, let us continue to inspire, challenge, and empower one another to reach greater heights of success and fulfilment.

Best Wishes,
Prof. S. Shantha
IQAC Coordinator.

MESSAGE FROM EDITOR

Editorial message:

"I can shake off everything as I write; my sorrows disappear, my courage is reborn" – Anne Frank.

It is a profound pleasure to bring out the College magazine 'Gregorian 2024' as the Chief editor. We have brought you a Kaleidoscopic view of the talents, captivating voices and perspectives of MGC in this magazine.The magazine aims to capture updates on the growth of MGC and individuals who are a part of it. I thank the editorial board who worked tirelessly to reflect the outstanding achievements of staff and students. My gratitude to the contributors for their diverse range of articles, art and write-ups brimming with creative ideas.

"**Education is not the learning of facts,but the training of mind to think" says Albert Einstein.** It is the only treasure that cannot be stolen. As one consumes or spends it increases; as one shares it expands. It not only gives the platform to succeed but also helps to develop moral values, perseverance, problem solving and decision making abilities.Students should carry forward the values they have inherited and excel in whatever they do and turn role models in the society.
"**To strive,to seek, to find and not to yield"** is Tennyson's inspirational words.Just as the Phoenix bird emerges stronger from the ashes, students must develop the ability to bounce back from adversity and embrace resilience. Let us travel the journey of our accomplished academic year 2023-24 through the pages of Gregorian which inspire change in ourselves.
Cherish the memories of MGC

ANNUAL REPORT 2023-2024

Mar Gregorios College of Arts & Science takes immense pride in depicting the nuances of its journey in the academic year 2023-24. In this happy journey, the major initiatives, events,

activities and the achievements of the staff and the students are chronicled.This Annual Report is the testimony of our MGC Family.

Dear Students, Faculty, Parents, and Esteemed Guests,

It is with great pleasure that I present to you the annual report for the academic year 2023-2024. This report encapsulates the hard work, dedication, and achievements of our students, faculty, and staff at Mar Gregorios College of Arts & Science.

The past year has been a remarkable journey filled with academic achievements, extracurricular successes, and significant strides in our mission to provide holistic education. Our students have excelled not only in academics but also in sports, cultural activities, and social outreach programs. Their accomplishments are a testament to their hard work and the support they receive from our dedicated faculty and staff.

We have introduced several new initiatives aimed at enhancing the learning experience and providing our students with the skills they need to succeed in an ever-changing world. Our commitment to innovation in education is reflected in the numerous workshops, seminars, and guest lectures that have been organized throughout the year. These events have provided our students with invaluable insights and exposure to diverse perspectives.

Our faculty members continue to be the cornerstone of our institution, consistently demonstrating excellence in teaching, research, and community service. Their unwavering commitment to nurturing the intellectual and personal growth of our students is truly commendable.

We have also made significant improvements to our campus infrastructure, ensuring that our facilities are state-of-the-art and conducive to a dynamic learning environment. These enhancements are part of our ongoing efforts to provide our students with the best possible educational experience.

As we reflect on the achievements of the past year, we are also mindful of the challenges that lie ahead. The rapidly changing educational landscape requires us to be agile and forward-thinking. We are committed to continuous improvement and innovation, and we will strive to exceed the expectations of our students, parents, and stakeholders.

I would like to extend my heartfelt gratitude to our faculty, staff, students, parents, and the entire college community for their unwavering support and dedication. Together, we will continue to build on our successes and work towards achieving new heights of excellence.

Thank you for being an integral part of our journey.

With warm regards,

Dr. R. Srikanth

Principal,

Mar Gregorios College of Arts & Science

Words of wisdom

"Don't take rest after your first victory because if you fail in second, more lips are waiting to say that your first victory was just luck."

"For me, there is no difference between a poor and rich student. Both have equal opportunities to learn and prove themselves."

5 DAYS SKILL DEVELOPMENT PROGRAM

Department of Corporate Secretaryship Shift II in association with IQAC organized a 5 DAYS SKILL DEVELOPMENT PROGRAM on various topics on 21/08/23 - 25/08/23from 4:00 pm to 5:30 pm. The Resource person for the following days is mentioned below.

DAY 1: Mr. C Arun Kumar, on the topic - Director's Duties and Liabilities under the companies act 2013: A comprehensive Overview. The session commenced with a direct focus on the primary topic: the role of directors has authorized decision-makers within a company. The speaker emphasized the directors' authority in overseeing and directing the daily operations of the business. Additionally, the presentation highlighted key responsibilities of directors, including the obligation to act in good faith, exercise appropriate care and diligence, steer clear of conflicts of interest, uphold confidentiality, and prevent instances of insider trading.

DAY 2: Mr. C Arun Kumar, on the topic - Companies Act 2013: Key changes and implications for Corporate Governance. In 1984, Bob Tricker coined the term 'Corporate Governance' and authored a book bearing the same name, subsequently earning the title of the Father of Corporate Governance. The session commenced with a review of the preceding discussion. The speaker proceeded to outline the three fundamental tenets of corporate governance: accountability, transparency, and equitable treatment of shareholders. Concluding the session, the speaker imparted key insights on how directors can circumvent misunderstandings through the presentation of select pivotal points.

DAY 3: Mr. Sujeeth Kumar M, on the topic - Where are you in this competitive world? The session commenced with an introduction by the speaker, who elaborated on the competitive nature of the world using real-life illustrations. The speaker also delved into the evolution of technology and its

pervasive influence on our lives. The presentation also highlighted that individuals with a strong inclination towards competition are prone to viewing various situations as contests, irrespective of the presence of a clear victor or vanquished party. Concluding the session, the speaker demonstrated appreciation for active participants by presenting them with books and Parker pens, thereby fostering motivation and engagement.

DAY 4: Ms. Derin Margret, on the Topic -Interview winning ATS resume, During the session, she provided an in-depth explanation of resumes and cover letters, discussed ATS (Applicant Tracking System) resumes and their functioning, explored various resume types accompanied by samples, offered techniques to enhance ATS scores, and elucidated the operational mechanism of ATS software. Furthermore, she offered valuable guidance to students on crafting compelling resumes to secure interview success, disseminated insights into contemporary recruitment trends, and proffered strategies for effectively navigating them. The interactive nature of the session enabled students to actively participate, seek clarification, and gain clarity on their queries.

DAY 5: Ms. Derin Margret on the Topic - LinkedIn Profile Makeover. The session covered several crucial aspects related to LinkedIn and its role in the job search process. Guidance was provided on creating an effective LinkedIn profile, focusing on showcasing skills, experiences, and accomplishments. It was noted that nearly 99% of the students did not possess LinkedIn profiles prior to the session. The session's content prompted them to recognize the value of such profiles and motivated them to establish their own professional online presence. The speaker also provided valuable insights by sharing five specific websites that facilitate direct communication with hiring managers and assist in creating compelling content for LinkedIn posts. This information equips students with practical resources to directly engage with opportunities and enhance their presence on the platform.

Making friends is hard

I am now a college student, separated from my selected people.
And its harder than I thought, to find someone who matches
Your energy and has the same definition of fun as you do.
To be in the company of someone who I could just exist, be quiet,
And grow with. Who as the same as me would rather just sit or lie down
And talk deeply about things that are sitting at the bottom of our heart, or
Things that would open us both to new perspective. Someone who will challenge
Me, my thinking and authenticity someone who I can be weird & rawest self with.
That's the kind of friendship I am looking for and finding that.
Its not easy at all……

MY ALL POTUKO

What would I do without you, my dear heart?
My lungs breathe your name from the very start.
With every beat, my heart echoes your grace,
In the tender memories of our embrace.

I still think of that day in the sunlit park,
And the metro station, where we embarked.
You spooned me ice cream, a moment so sweet,
A love story's beginning, where two hearts would meet.

I'd use myself as a shield, if I could dare,
To protect you from life's burdens and its wear.
Be strong, my love, through life's tumultuous art, Perhaps, at the end, we'll find a fresh start.

Through thick and thin, we'll conquer what's thrown, With love as our fortress, we're never alone. So let our hearts beat, in rhythm, in tune,
For together, we'll face the rising moon

FRIENDSHIP POEM

To care for a friends is what I like to do
Make them feel happy and laugh till we're blue .
Go to the park and play basketball
Or even maybe go to the mall .
Have an ice cream in the summer time
Grape bubble gum or even lime.
Grop up and cry about life's heartaches
Get over it, work together, whatever it takes.
I will be with my friends all the way through
Unitil I'm about friends (102)

Meridians of Nature

Meridians precisely they pass,
Through this globe in a mass.
Nerds call it need of the Hour,
Nomads live through as places of shelter.
Cool shades of trees they always are,
Sharp blades that end nuclear war.
Moons and stars always, we wonder.
As expeditions. Ever eager to ponder?
Why should cars run the perils
Of harmful emissions from diesel?
Nay, I shun those long pipes of coil,
Embrace the slim batteries of electric coil.
Use resources to its fringes,
Not exploit it to it shinges.
Plants and trees never betray,
Biosp here, stays here, paving its way.
Generations, are waiting to emerge,
With sonnets of joy, to further surge.
Open your hearts to embrace,
Opera of lush green vast spaces,
Here is the world, that mothers human race.

Mom's Magic

When I return Home from School
You are not there I'll cry

When you do something cool
I will follow and make a try

My mom name is Dhee
Dad likes your Special Tea

You taught me to pray before starting meal

If I Ask For one Dosa,
You give me two

I Thought you were weak in Maths
But, you gave everything with Love

From the Bottom of the Heart.

வைர நெஞ்சம் கொண்ட பெண் மீது அன்பு

என் நெஞ்சம் ஏங்கும் உனக்காக

நான் உன்னை பிரிந்து இருக்கும் போது...

உனக்காக காத்திருப்பேன்

என் உடல் செயலிழக்கும் வரை...

யார் உன்னை வெறுத்தாலும் நான் இருப்பேன்

என் முடிவு வரை...

யார் உன்னை எதிர்த்தாலும் நான் உனக்காக

போராடுவேன் பெண்ணே...

என்னை விட்டு போகாதே என் பக்கம் நில்....

அது எனக்கு வலிமை தரும்...

ஆயுள் வரை....

FAMILY POEM

As humn beings,
When we encounter a challenge,
We have freedom to choose how to react,
Every decision that we make
Leda us down a different road
We will never come to exactly the same
Cross roads.
Every decision that we make has significance
The finest choice that we make
Reverberates throughout the entire universe.

BE BRAVE ENOUGH

"Life can be beautiful, but it is far from perfect. Many things can bring us joy, and many things can leave us hurting inside, too. Despite your best effort, some things are beyond your control; if you are ready, tragedies and disappointments will happen."

When you are living an everyday life, nothing bothers your soul. You are in your comfort zone.
Your thoughts are routine.
You don't dig deep.
You move on with the flow.

The Daily routine, few friends, and the usual work keep you busy. You are too content to bother about what you are missing. And that's usually how most people spend their entire lives. It's only hurt that wakes up your soul. When something breaks your heart, your whole life shakes up. At first, you shut down everything and embrace loneliness.

You refuse the daily chores of routine life.
You are no longer going with the flow.
You are dragging from one day to the next, knowing that this is not the life you want-
You scream in the pillow.
You cry at night.
You feel lost, broken, and spent.

And when your eyes have cried out the soothing pain in your veins, you enter a numb zone. You are in a state of trance. You don't feel the pain. You feel empty. And to fill this void in your soul, you seek what your life should be.

And in this moment of emptiness, you get the golden opportunity to find your real calling. You can choose an easy way out. You can try to fill that void with the same thing that left you. Most people make that mistake. They waste their pain and their heartbreak. But the lucky few see it as a door to unshackle themselves. They sought what was calling them, but they ignored it. They try to feel more. They talk more to themselves. They go deeper into things. And with these thoughts, they find the miracle of life, purpose. They finally realise that their time on the planet is minimal. And if they don't go after their dream, they will enter death with regret and a heavy heart. So they make their dream the most important thing. They embrace self-love. They become self-dependent. They choose to ignore everything else, including background noise. And then, the magic finally happens to them. It's all in your hand. You can make your shattered self into the most fantastic masterpiece ever. You had to break to build a new you. TRY!

IMPORTANCE OF MENTAL HEALTH

INTRODUCTION:

The significance of ethnography and cultural variations in the prevalence and manifestation of mental health illnesses is covered in this chapter. New conceptual and methodological frameworks that emphasize cultural variables as a major predictor of the onset, expression, course, and outcome of mental diseases resulted from the mental health professionals' awareness of this is a set of recommendations was adopted by the American Psychological Association in 1992 for psychologists who work with patients from various ethno cultural groups.

Without mental health, there can be no health Neuropsychiatric illnesses have been linked to around 14% of the world's disease burden. This is primarily because of the continuously crippling character of prevalent mental disorders like depression, alcohol and substance use disorders, and psychoses. These projections have highlighted the significance of mental illnesses for public health. However, they may have solidified the exclusion of mental health from mainstream initiatives to enhance health and combat poverty since they emphasize the distinct contributions of physical and mental illnesses to death and disability.

Due to a lack of understanding of the connections between mental disease and other medical conditions, the burden of mental disorders has probably been understated.

There cannot be health without mental health due to the unpredictable nature of these connections. Mental illnesses raise the risk of both intentional and unintentional damage, as well as infectious and non-communicable diseases. On the other hand, co - morbidity affects prognosis, complicates diagnosis, treatment, and help-seeking, and raises the risk for mental disorders. People with mental diseases do not receive health services equally, and they may receive better care for both their physical and mental health issues. Psychosocial therapies that can be incorporated into the treatment of both communicable and non-communicable diseases must be developed and assessed.

In order to improve the delivery of mental health care, health care systems should be strengthened. This can be achieved by concentrating on currently running programs and initiatives that address issues like gender-based violence, antenatal care, integrated management of childhood illnesses and child nutrition, HIV, TB, and malaria prevention and treatment, and creative chronic disease management. It could be necessary to set aside money specifically for mental health initiatives.

A number of MDGs, including improving maternal health, stopping the spread of HIV/AIDS, promoting gender equality and women's empowerment, lowering child mortality, and improving mental health, are all impacted by progress made toward achieving these goals. All facets of health and social policy, health system planning, and the provision of primary and secondary general education must incorporate mental health knowledge.

Conclusion:

Raising mental health literacy is necessary if mental illnesses are to be identified in the community at an early age and appropriate intervention is to be sought. Additionally, a significant improvement in public knowledge of mental treatments can be achieved.

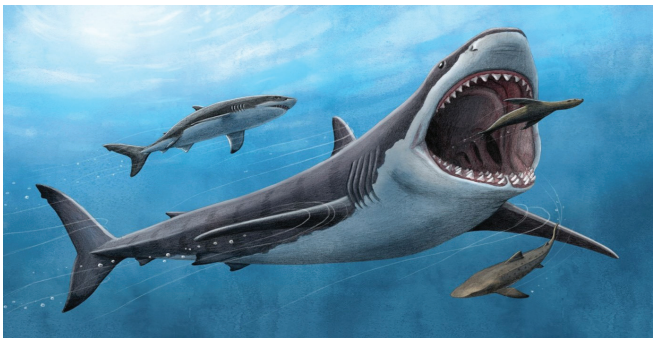
Otodus Megalodon



OtodusMegalodon, commonly known as "The Megalodon",is an extinct species of giant mackerel shark that lived approximately 23 to 3.6 million years ago,from the early Miocene to the Pliocene epochs.O.Megalodon was formerly thought to be a member of family Lamnide and a close relative of the great white shark (Carcharodoncarcharias), but has been reclassified into the extinct family Otodontidae,which diverged from the great white shark during the Early Cretaceous. While regarded as one of the largest and most powerful predators to have ever lived,megalodon is only known as fragmentary remains and it's appearance and max size are uncertain.Scentists differ on whether it would have more closely resembled a stockier version of the great white shark, the basking shark on the sand tiger shark.The most recent estimate with the least error range suggests a max length are estimated at 20.3m(67 ft),although the modal length are estimated at 10.5m(34 ft).

Great white shark

i). A megalodon about 16m(52 ft) long weighs upto48T (53 short tons;4 long tons).
ii).One17m(56 ft) long weighs upto59T (65 short tons;58 long tons).
iii).One20.3m (67ft)long(the max length) weighsupto103T (114 short tons;101 long tons).
Extrapolatng from a vertebral column and reconstructing a 3d model with dimensions based on all extant lamnid sharks suggests that a 16m long(52 ft) individual may have been much larger than previous estimates,reaching an excess of 61.5T (67.8 short tons;60.5 long tons) in body mass.Their teeth were thick and robust could exert a bite force upto108,500 to 182,200 newtons(24,390 to 40,960 lbf).

The animal faced competition from whale-eating cetaceans,such as Livyaton and other macroraptorial sperm whales. There growth rate can be measured at a rate of 16cm(6.3 in) per year and a length of 2m(6 ft 7 in)at birth.For a 15m (49 ft) individual;which they considered to have been the max size attainable – this would equate to a lifespan of 88 to 100years.However,cooper and his colleagues in 2022 estimated the length of this 46 years old individual at nearly 16m(52 ft) based on the 3d reconstruction which has been resulted in the complete vertebral coloumn to be 11.1m(36 ft)long.

The earth experienced a no.of changes during the timeperiod.Megalodon existed which affects the marinelife.A cooling trend starting in the Oligocene 35Myaultimately led to glaciation at the poles.Among these were the closure of the CentralAmerican Seaway and changes happened in Tethyssea,contributing the cooling of oceans.The largest fluctuation of sealevels in Cenozoic era occupied in the Plio-Pliestocene,between around 5 million to 12k years ago due to the expansions of glaciers at poles,which negatively impacted coastal environment and may have contributed to its extinctions.

As it's range didn't apparently extend into colder waters,megalodon may not have been able to retain a significant amount of metabolic heat,so it's range was restricted to shrinking warmer waters.Megalodon was found in locations with a mean temperature ranging from 12-27*c(54-81*f),with a total range of 1-33*c(34-91*f).

Desire to Survive

We live in this beautiful world created by God. The beauty of Nature delights us all the time.Nature gives air, water, food and shelter for the survival of living species. Chirping birds,colourfulbutterflies,dancing peacocks fascinate us.We must always preserve nature as it relieves our stress.We should not take it for granted rather we should come forward to conserve it for future generation.

Life is to live and if we have the desire to survive, it will be more exciting.The purpose of our life is to make it meaningful and joyful.Happiness lies within us. Positive psychology,will power and belief in self-development will help us to achieve our goals and fulfill our desires. We should not give up or submit ourselves to anything. Those who had the will to strive succeeded in their lives. They also became the great leaders of the world.We need to possess tremendous fortitude and strong determination to endure life. It is reflected in the famous saying of the poet, Lord Tennyson, "To strive, to seek, and not to yield". We become strong if we possess the will to strive at the time of adverse.This will bring true happiness in life.

According to Darwin, in the struggle for existence,various species are developing to adjust to new conditions. Only the fittest survive and those who cannot adapt fail to survive. Survival in times of danger needs physical and emotional strength. We should accept joys and sorrows of life equally and learn to balance. We have entered this world for a cause.Faith in God, kindness, patience, optimistic attitude,perseverance, indomitablewill power, strong determination and willingness to work hard are the virtues we must possess in order to survive as a good human being in this world. Those who have vein of iron and inherit all these characteristics will be the fittest to survive.They can find design in life to survive. People who lack these traits are less fortunate and need someone to support, guide and show the path of success.

Will to survive is the most prominent crisis during the pandemic times. Covid-19 has hit the entire human race and recorded the world history.It has lead to massive humanitarian crisis of sickness and fatal death. The root cause of this pandemic disease is not following the hygienic conditions which are essential for the protection of health. Cleanliness should be followed wherever we go. Nature is so gentle and patient in providing its assets. But we are exploiting it. It has started punishing us. Workplaces are shut due to lock down. We have neither experienced such a crisis nor our ancestors.The global economy was brought down.The migrant workers suffered a lot to reach their native places. But with the will to live, they started their journey on foot. Many people who lost their jobs had a will to survive. Some of them established a small food businessat home to earn their living. Work from home trend is followed around the country.

Survival is not for humans alone. It is found in all living creatures. Even animals and birds have the will to survive.We would have heard about bar-tailed God-wit birds which hold the longest non-stop flight of nearly 11,000 kms without rest and sets a new world record.During their flight,they neither sleep nor eat.They travel 40 miles an hour,fly through the night slowly and starve till they reach their destination.Every migration is a perilous feat of endurancetothem.The birds urge to migrate as they have thegreat will to survive.

We would have known about the rebirth of Phoenix and Eagle in the mythical stories. The mythical bird Phoenix is a symbol of revival, strength and immortality. It is reborn from the ashes of its predecessor.Though the bird lives several hundred years before it dies by setting itselffire,it starts a new

life from the ashes of the fire.This should be reflected in our journey of lives too. Human creatures can burn their sins and evil thoughts like the Phoenix bird and resurrect their life.

Similarly, the eagle takes the flight of rebirth and lives for thirty more years. The bird's sharp beak becomes bent in its 40th year and it finds difficult to fly due to its heavy wings. The eagle will fly to a mountain top and knocks its beak against a rock and plucks it out and also renews the feathers gradually. It will wait for the new beak and feathers to grow back. This painful process of transformation lasts for five months. The eagle's strong will to survive helps to overcome the pain.We must shed off arrogance, ego, greed,hatred,jealousy, selfishness andnegative thoughts like the eagle. We too need a change to make the world a better place to live.

Honey bees remain active even in winter season. They don't find sufficient flowers. They have to resist the frozen temperature and with their strong will they ride out the winter by creating their own heat source. Hard work is not a choice for them. But this is the way they strive to survive throughout their life.

When the trees are hacked or chopped, leaves sprout from the wounded bark of the tree. It renews energy and gets a power to heal itself. The tree strives to overcome the pain and starts its new life with the will to survive.

People with disability live a frustrated and uncomfortable life. It is not easy for them to adapt themselves to life.They need to shed off their low self-esteem and have a good interaction with positive friends.Only the inner vision of positive things makes them happy. They must also find their right skill to empower themselves and thrive to live happily.

Education plays a major role in empowering women. Suffering women will survive if they have perseverance and the soul force fortitude. Education trains themto acquire knowledge andconfidence and provides them a healthy life style.It helps women who lost their husbands to empower themselves with courage and indomitable will. Educated women can change the world into a better placewith the will to survive.

Life is precious and worth living.If we have the desire to survive, we can face the challenges of life confidently.Live happily and spread happiness to everyone. Every individual with a will to survive can lead a peaceful and healthy life and can transform a home into a paradise.

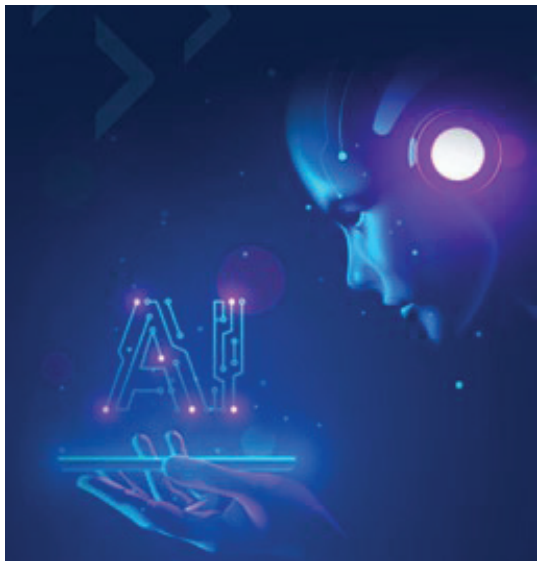
AI :REVOLUTIONIZING FUTURE TECHNOLOGY



Artificial Intelligence (AI) is not merely a technological trend but a transformative force that is reshaping the fabric of our existence. From automating mundane tasks to unlocking unprecedented insights, AI is propelling us into a future where the boundaries between the human mind and machine capabilities blur. This article delves into the evolution, key components, impact on industries, and the challenges and ethical considerations associated with the realm of Artificial Intelligence.

The Evolutionary Leap:AI has undergone a remarkable transformation from early rule-based systems to sophisticated machine learning algorithms and neural networks. This evolution, fueled by advancements in computing power, data availability, and algorithmic sophistication, has propelled AI from a theoretical concept to a practical tool capable of mimicking and surpassing human cognitive abilities.
The responsible and effective usage of Artificial Intelligence (AI) involves a commitment to ethical practices, transparency, and user empowerment. It requires developers and organizations to prioritize fairness, mitigating biases, and ensuring the privacy and security of user data. Transparency is paramount, enabling users to comprehend the functioning of AI algorithms and fostering trust. Inclusivity should be a guiding principle to prevent the reinforcement of societal biases and to ensure that AI systems cater to diverse populations equitably. User empowerment is facilitated by providing individuals with control over AI applications and respecting their preferences. Additionally, collaboration among stakeholders, continuous evaluation, and human oversight in critical decision-making processes contribute to the responsible evolution of AI. This holistic approach aims to harness the potential of AI while minimizing risks and negative societal impacts, creating a future where AI serves as a positive force for individuals and communities.

By adhering to the principles, developers, organizations, and policymakers can contribute to the responsible and beneficial use of AI, fostering a future where AI technologies enhance human well-being and contribute positively to societal progress.

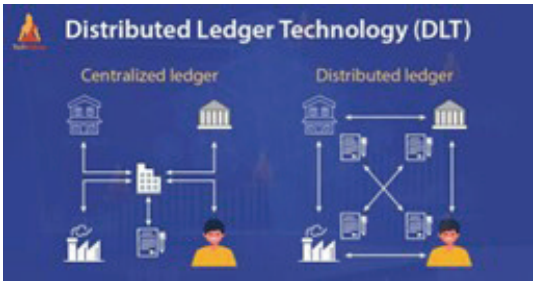
BLOCKCHAIN TECHNOLOGY

Introduction:

Blockchain is a shared, immutable ledger that facilitates the process of recording transactions and tracking assets in a business network. An asset can be tangible (ahouse,car, cash, land) or intangible (intellectual property, patents, copyrights, branding). Virtuallyanything of value can be tracked and traded on a blockchain network, reducing risk and cutting costs for all involved.

Elements of a blockchain :



• Distributed ledger technology-All network participants have access to thedistributed ledger and its immutable record of transactions.

• Immutable records-No participant can change or tamper with a transaction after it's been recorded to the shared ledger.

• Smart contracts-A smart contract means conditions for corporate bond transfers, include terms for travel insurance to be paid and much more.

Blockchain works:

As each transaction occurs, it is recorded as a "block" of data.Those transactions show the movement of an asset that can be tangible (a product) or intangible (intellectual). These blocks form a chain of data as an asset moves from place to place or ownership changes hands. The blocks confirm the exact time and sequence of transactions, and the blocks link securely together to prevent any block from being altered or a block being inserted between two existing blocks.

Transactions are blocked together in an irreversible chain: a blockchain

Each additional block strengthens the verification of the previous block and hence the entire blockchain. This renders the blockchain tamper-evident, delivering the key strength of immutability. This removes the possibility of tampering by a malicious actor — and builds a ledger of transactions you and other network members can trust.

Benefits of blockchain technology:

• trust.
• security.
• More efficiencies.
• Traceability

Key points to understand the blockchain technology :

1. Nodes within peer to peer network
2. Properties of block and genesis block
3. Transactions is done by ledger
4. Validation of process mining
5. Proof of Work (pow)
6. The consensus within a blockchain architecture

Types of blockchain:
There are four types of blockchain technology namely
1. Private
2. public
3. Consortium
4. Hybrid

private blockchain:
Private Blockchain can be accessed by only a limited number of participants.

Public blockchain:
Public blockchain allows all of the network participants to do transactions within a blockchain system.
Consortium blockchain:
Consortium blockchain can be defined as the combination or hybrid of private and public blockchain systems.
Hybrid blockchain:
The visibility of the chain can be limited to validators, viewable to authorized individual

Advantages of blockchain technology:
• Immutability: Blockchain supports immutability, meaning it is impossible to erase or replace recorded data.
• Transparency: Blockchain is decentralized, meaning any network member can verify data recorded into the blockchain.
• Cost Reduction: As blockchain needs no third man it reduces the cost for the businesses and gives trust to the other partner.

Disadvantages Of Blockchain technology:
• Scalability: It is one of the biggest drawbacks of blockchain technology as it cannot be scaled due to the fixed size of the block for storing information. The block size is 1 MB due to which it can hold only a couple of transactions on a single block.
• Speed and performance:Blockchain is considerably slower than the traditional database because blockchain technology carries out more operations.
• High implementation cost: Blockchain is costlier compared to a traditional database.
• Storage: Blockchain databases are stored on all the nodes of the network creates an issue with the storage, increasing number of transactions will require more storage.

Blockchain application
Bitcoin is created, distributed, traded, and stored using a decentralized ledger system known as a blockchain. Bitcoin and its ledger are secured by proof-of-work (POW) consensus, which also secures the system and verifies transactions.

Conclusion:
Using a blockchain can remove the need for central authorities when making transactions. This is because trust is built into the model through immutable records on a distributed ledger, and all members contribute to the integrity of the database
