MESSAGE FROM THE BISHOP

I am happy to note that Mar Gregorios College, Chennai is coming out with yet another issue of the college annual e-magazine. The digital magazine is yet another bold move from the College that tells us that despite all obstacles the mission of education continues finding novel means to enlighten the world amidst the fatal novel Corona pandemic.

Today we have thousand reasons to lose hope and succumb to the pandemic. The second waves still continues to be at its peak, mortality rate continues to be high, lockdown prevents us to be the way naturally we are, the scientific world predicts a much upgraded version of Covid resulting in the third wave and above all the onslaught of new diseases like black and white fungus. The real quality and test of our education is however in our ability as human beings to stand firm without losing hope amidst these tense situations. It is not only in our capacity of being optimistic but rather it is to be innovative wherein we convert these challenging moments into opportunities. It is the faith in the Divine, that transcendental yet imminent power that gives us this energy. Lee Roberson rightly says, "The greatest faith is born in the hour of despair. When we see no hope and no way out, then faith rises and brings the victory." It is faith that gives us the dynamo to move forward despite negative results and crushing experience. St. Paul teaches us, "we are afflicted in every way but not crushed; perplexed, but not driven to despair; persecuted but not forsaken; struck down but not destroyed." True education is enlightenment, it is the illumination within which no darkness from outside can shadow down. This inner education is knowledge rooted in God and that's why we assert that fear of God is the beginning of wisdom (c.f. Proverbs 9:10)

I wish all success to the members of the MGC fraternity in their march towards education with innovation amidst the pandemic. God bless MGC! Let the divine bless us all with HOPE!

Yours loving Aboon,

✠ **Thomas Mar Anthonios OIC**

Bishop of St Ephrem

MESSAGE FROM THE CORRESPONDENT

College is a social institution that reflects the standard of the Society. Therefore, good colleges are needed for a good society to recognize and utilize its hidden talents for the fullest possible upliftment and progress. Above all, it always keeps its door open for all irrespective of caste and creed, rich and poor. Hence, it may be termed as a pious and sacred social institution. One step ahead, it ignites the young minds and mould them to good citizens as well as the good leaders of the nation.

Nurturing creativity and inspiring innovation are the two key elements of a successful education. A college magazine is the perfect amalgamation of both. It harnesses the creative energies of the academic community and distills the essence of their inspired imaginations in the most brilliant way possible. Hence, I am delighted to know that MGC's Annual Magazine **Gregorian 20-21** is ready for publication.

I take this opportunity to congratulate Rev. Fr. Philip Pulipara, the secretary, Dr. M. Sivarajan, the Principal, the Vice Principals, the entire teaching and non-teaching staff for their continuous effort and tireless dedication during this pandemic period of Covid 19. In a very special way, I appreciate the Editorial board for bringing out this magazine as per schedule, which itself is an achievement considering the efforts and time required. I also extend my sincere appreciation to the persons who have contributed to this magazine through various forms of talents.

May God Bless you all.

With Prayers and Love,

Msgr. Varghese Angadiyil

Vicar General and Correspondent

BLESSINGS

THE BATTLE IS TOUGH

The battle is tough, but still everything is on our side and things are about to shift in our favour!

Hang in there!... Here the good news comes... The toughest battle comes before the biggest break through!

What has to be done and what could be done is the question of every mind and heart now.

We humans are the crown of creation. Our declaration of positivity matters much during this pandemic.

We have the power to create the world through our words. So let's believe that we are blessed, we are strong and healthy, we can be successful, we are secured and we are highly favoured. We should also declare the same, so that we shall have the fruit of our words.

This is the time not to discuss the problem but to declare the cure.

We are created with full of power, strength and determination. Nothing we face is too strong for us. We shall give birth to every promise that our heart believes, we shall overcome every obstacle, out last every challenge and come through every difficulty better off than we were before.

It is not too late to accomplish our dreams. We are now prepared to face a special grace. This is our time and this is our moment to receive it. This panic season will pass and we shall pursue new opportunities to explore. So get rid of wrong mindsets. The rest of our life can be the best of our life. So stay passionate about the dreams of the heart. Don't let one disappointment or even a series of disappointments to convince to give up.

We will be soon victorious! New seasons of growth are awaiting!...

I would like to appreciate and thank the Gregorian Magazine Committee for their valuable time and creative contributions to make it a wonderful piece of creation. Congratulations Magazine team. We value and respect it and once again a Big Thanks.

God bless you and God bless MGC!

Rev.Fr.PhilipPulipra

Secretary

MGC

MESSAGE FROM THE PRINCIPAL

The task of the modern educator is not to cut down jungles, but to irrigate deserts.”- C.S. Lewis

Mar Gregorios College is one of the colleges that offer a wide range of options in addition to a value-based quality education that nurtures each student's inner potential. Our prime aim is to ensure the intellectual excellence along with emotional growth of our students which empowers them to develop their self esteem, self awareness and self confidence, so that they will grow into young adults who are prepared to face the future with confidence. Our mission is to change the world through education. We believe in continual improvement and seek to put forth our best efforts and endeavours towards the benefit of the students. Our institute is dedicated to upholding its core values and objective of producing well-rounded individuals and knowledgeable professionals.

The world we know is changing daily; we have all gone through some very difficult times this year. During these hard times, I am extremely appreciative of our students, parents, teachers, supporting staff, and administrators for their positivity, adaptability, and perseverance. The MGC faculty and supporting staff are dedicated to our students' education and have always gone the extra mile to keep our students engaged and motivated towards learning and also to a large extent keeping them happy and concentrating on their mental well-being. It was quite inspiring to observe and witness the potential of our students' blossom at various stages and in diverse situations each day. I believe we all will be stronger when we come out on the other side of the COVID-19 Pandemic. A huge debt of gratitude also goes to all of our doctors, nurses, hospital personnel, and first responders for everything they do to keep us safe and healthy.

The college magazine is a forum for recording events, fond memories and exhibits the literary skills of our students. I would like to appreciate the students and staff for their fruitful effort and simultaneously encourage all the students to contribute for the successive issues of our magazine. My heartiest congratulations to the editorial board that handled the difficult work with the greatest efficiency. I'm hoping that 'Gregorian 20-21' will help students develop a love of reading as well as a sense of belonging to the institution.

Each student is a person with distinct abilities and talents, and we hope that through motivation, support, and hard work, all of our students will discover their individual talents.

I hope and pray that every day is a special day for every student that walks through the doors of Mar Gregorios College with the desire to learn and grow more than they did yesterday. Let us dive into the ocean's depths and explore the universe together, using the Wings of Knowledge and the Power of Innovation.

Dr.M.SIVARAJAN
Principal

MESSAGE

All praises and glory to the Almighty God for His love, blessings, wisdom and knowledge bestowed on the MGC Family.

I am profoundly privileged to pen down a message for GREGORIAN 20-21. With profound gratitude, I express my thanks to Rev.Fr.Philip Pulipra, Secretary and Dr.M.Sivarajan, Principal and Ms.K.Subhashini, Vice Principal, Shift-II for their vision, support and encouragement. GREGORIAN 20-21 has captured the momentous moments and achievements of Mgcians and the Teaching Fraternity.

MGC was established in the year 1997 with the noble vision to impart value-based and quality education to society in a serene environment. MGC plays a greater role in transforming society and its people in the spheres of academic, social, economic, mental, moral and physical development irrespective of class and creed, colour and community, low and high, rich and poor. MGC, abode of academic excellence, ignites the young minds and mould them to be good individuals in the society.

I am extremely happy for the Teaching Fraternity for the Awards, Doctorate Degrees, honours and recognitions received which stand as a testimony of one's incredible professional journey and also motivates to push the bar further and strive harder to nourish the young minds of our college. Teachers are the driving force for the Students who motivate them to convert challenges into opportunities. Gregorian 20-21 is a platform where students have unveiled their literary and artistic talents. I believe that writing ability exists in all but it is the urge to write a few possess. It has been a constant endeavour by the teachers to stir this urge on students to write about the things they feel, see and do. I am proud of the small group of Students represented here.

I congratulate and appreciate the Editorial Board on its tireless efforts to bring out this publication. I do extend my sincere thanks to all those who've contributed to this issue and enhanced its perfection and beautification through their accolades, achievements both curricular and co-curricular activities, articles, poems, jokes, thoughts, mind games, artworks etc.

Friends! let's work in one accord to serve the cause of education and for the betterment and welfare of MGC.

My wish and prayer are that our boys and girls grow as world class citizens, a generation of eminent thinkers, and wise planners contributing their best to this world.

God bless the Team!

God bless M.G.C.!

S.Ann Hepzibah Niraja
VICE PRINCIPAL-SHIFT I (Up to 30th April 2021)

MESSAGE

Mar Gregorios College has its ethical roots in the field of education, I feel proud and blessed to become a member of this family. Our students have reached the greater heights as stimulated by the motto “Let Your Light Shine”.

The students come here with a great expectation and vision and achieve their dreams. The aim of the college always has been to bring out the best in the students and make them better citizens. The college always tries to impart in the students the academic excellence, a sense of duty, discipline and above all moral and humanitarian values which are a need of the time. With the cooperation of the parents and guardians we can form our students and help them conquer the excellence.

With experienced and dedicated teachers and excellent infrastructure, our college helps students to grasp their goals in life. Along with a great concern of parents and teachers I also would like to make the students aware of their responsibilities towards the parents, college and towards the society

I wish and pray that everyday be a special day for every child who enters the portals of MGC with a heart and mind set to grow more than days gone by

*We cannot always build the future for our youth, but we can build our youth for the future”.
Remember “The reward of every good action will be good only”.*

Mrs.V.Savithri

Vice Principal(From 01.05.21) & Head, Department of Electronics & Communication Science
Shift-I

MESSAGE

VALUE OF EDUCATION

Education is the essential thing for our life, and it helps in the growth of human civilization. Education is necessary to understand the universe around us and convert it into something more beneficial. With the help of knowledge, we can develop a new perspective for our life.

A reliable education provides many purposes to life like an individual improvement, development in social well-being, financial growth, prosperity to the country, establishing life purposes, informing us of many social concerns, and determining the circumstances to offer best solutions for any issue and other relevant matters.

Education gives the sense to know all human liberties, social freedoms, responsibilities, and obligations towards the nation.

So students should understand the value of education, so that they will not only gain subject knowledge but will also enhance their wisdom. In short, education has the power to reform a nation in the best way. This can be achieved only through the student community.

Mrs. K. Subhashini

Vice Principal & Head, Department of English
Shift-II

ANNUAL REPORT 2020-2021

In today's digital and pandemic world, every area of life including the sphere of education has globalization networking. There is a dire need to adapt to the global reality and sustain global standards in education. Education is an intrinsic step towards self-realization and self-transformation, setting goals for our self in life and through perseverance achieving the goal. Thus one's life will be transformed into something intellectually rich, making the young generation God fearing and socially responsible individuals.

We the MGC Family with great pride present a record of the liveliest and most endearing memories of our Esteemed Institution that deserves a well worthy place in our remembrance. Like colourful butterfly, students and staff in M.G.C are excelling in all spheres of life and blooming with blissful colour. Yes! This Annual Report is the testimony to our M.G.C Family.

The Mar Gregorios College of Arts and Science was established in 1997 by the Malankara Syrian catholic management. It is a Christian minority institution named after the most reverend Benedict MAR GREGORIOS, Late ARCH BISHOP OF Tiruvananthapuram Arch Diocese. Nested in an eight acre campus in the great city of Chennai, our college has rendered remarkable service in all walks of life all over the country.

Building on a legacy of achievement for 23 years, this has proven to be yet another exceptional year of our college.

With a bright new dawn, a new horizon, renewed hope and fresh energy to achieve, the college re-opened for II and III UG and II PG students on 6th July 2020, for I UG students and for I PG students on 1st September 2020.

Department of English:

- An Online Quiz on Communication Skills on 12th May 2020 was organized. Departments of English (Shift-II) and Other Selected Languages (Shift I & II) in association with IQAC conducted a Webinar on 10th June 2020. The resource person was Mr. T. Prashanth, an

English Language Trainer and Social Worker. The resource person of the day gave speech on Emotional Intelligence, Self-Motivation, Self-regulation, fighting stress. Around 78 students participated enthusiastically.

- An Online Webinar through its association “ELAN CLUB” on 12th September 2020 from 11.00 am to 12.30 pm. The Chief Guest Ms. R. Yamini, Head, PG Department of Social Work, delivered a speech on “Relaxation and Calming Oneself”. She enthralled the audience by her motivating and inspiring speech.

Department of Computer Application:

- An online quiz “E-Quiz 2k20” for Higher Secondary school students was conducted on 16 & 17th May 2020. Totally 97 students participated and received E-certificates.
- A FDP on “Cloud Services and rest Architecture design” was organized on 19th May 2020 through Google Meet. The Resource person was Mr.S.Kalidas Founder & Director, IFANDFORENDEVOURS. Around 150 faculty members participated and received e-certificates.

- ‘IT Job Trend in 2020’ a webinar to enrich the students with the job opportunities available exclusively for the final year students was organized. Professor D.S.Kannan, Creative Academic Head, Aptech Learning and Aviation Academy, Bengaluru was the guest speaker of the day.

Department of Computer Science:

- Department of Computer Science – Shift II jointly with Shift I in collaboration with IQAC organized a workshop on “An Introduction to Chatbot and voice assistance” & “ An Introduction to Machine learning” . Mr. Sachin Kumar, Founding team member and CTO at Tupleo Life, Google Developer Experts, Head of GDG(Google Developer Group) Doha shared his technical expertise and encouraged our students to develop their career opportunities.
- An Online Quiz Competition on 21st May 2020 for Higher Secondary School students was organized.

- A Power seminar on “Cyber Security” in collaboration with ICT Academy on 27/02/2021 was organized for the students of MGC both shift I and II. Mr.S.Saisathish, Founder and CEO of Indian servers was the resource person for the seminar. His technical knowledge

encouraged our student to develop their career opportunity in Cyber security the participants had the opportunity to know about the security measures in digital world.

Department of Business Administration:

- An online Business Quiz(E-Quiz2k20) for Higher Secondary School students and college students on 22nd & 23rd May 2020 was conducted. 189 students participated in the event and received e-certificates.
- “EXPLORICA 2020” on 10th October 2020 was held .The program Chief Guest Prof.P.Balakrishnan M.A.,M.Phil., Sindhi College of Arts and Science , Department of Economics, gave a presentation on topic “APPLICATION OF ECONOMICS IN BUSINESS” to the students.

Department of Corporate Secretaryship:

- “Application of Tools & Techniques in Research” an FDP was organized and the Guest speaker Dr. P. Praveen Kumar, Associate professor of Saveetha school of management and Saveetha institute of Medical and technical Sciences shared his experience.
- A Career Guidance and Counselling was arranged and Mr. Senthil Kumar, VP of RBS guided the students and the various opportunities available in the Banking sector were discussed.

- “ Scope for Corporate graduates in Banking sector undertakings & Interviewing skills for success” an international webinar was held on 20th march 2021. The Resource person was Mr. SridharanDhamu (Banking services & Product consulting manager, Cognizant worldwide Ltd,Singapore).

Department of Commerce:

- A National Level Online Quiz Programme on 15th May2020 was conducted.
- On Banking Sector Outlook Post Covid-19 a National level webinar was organized on 13thJune. The two eminent speakers Dr. S. Gurusamy (Head of department of Commerce, University of Madras) delivered his message on the topic “Future of Public Sector Banking in India” at 11.00 am and following him, Dr. P. Natarajan (Assistant Professor of Pondicherry University) on “Banker’s Perspective on Responding COVID-19”.

Department of Commerce (Computer Application):

- “OFFLINE AND ONLINE VULNERABILITIES WITH PROTECTION TECHNIQUES” a National level webinar on 21 May 2020 was organized. The resource person Mr. S. Kalidas, delivered the speech about the protection Techniques were explained very well using offline and online examples.

The screenshot shows a presentation slide with the following content:

- 1. **For Computer Science:** You can collaborate with Science Researcher to work on computation of data's. For eg. In Chemistry – Density Functional Theory Calculation, Designing New formulas.
- 2. **For Literatures:** One can involve in translating entire manuscript into other languages like in Tamil, Hindi to reach common public as well.
- 3. **For Commerce:** Can discuss with Business people' convert their experiences into data's.
- 4. Always prefer **peer-reviewed journals**
- 5. Few important subject specific journals **do possess less impact factors**
- 6. Not every time **High Impact factor equals to best researcher.**
- 7. **Don't forget to acknowledge every author who have made significant contribution into particular article.**

The slide also features a 'Lenovo' logo at the top, a small video feed of a man in the top right corner, and a Windows taskbar at the bottom.

- National Level Virtual FDP on “LADDER TOWARDS BASIC RESEARCH AND HIGH IMPACT PUBLICATIONS” was organized on 26 June 2020. The resource person Dr. P. Prabhu, Assistant Professor, Department of Physical Chemistry, University of Madras delivered the presentation. He explained the steps of research publication in different articles, journals, and conferences are explained by him.

Foot Ball

The smell of the green grass,
The sight of the ball,
A ball of happiness, quite literally
The sound of heartfelt cheers
The taste crisp Spanish Air
And the feeling of the adrenaline rushing through
you
Football,
A feeling,
An emotion,
A redemption,
When I smile from within
Otherwise drought ridden eyes, teared up
Where every part of the body , pumped up.
In unity, fans chants
Where derby and El Clasicos matter,
Standard synonymous for love,
And Santiago Bernabeu, our temple.
Football,
Sole purpose,
Soul's purpose.

College Days

Making friends and memories
That will last forever in my mind.
Learning the lessons that will mold
Me into the person I will find

Discovering the possibility of
Choices that I will need to make
Wondering about the challenges
That lie on whatever path I take

Listening to my heart, I set a course
For the goals I wish to achieve
And now I begin the journey of my
Dreams, knowing that all I need is to

Believe.

If I Ran The World

I Would make INDIAN football team to get the
respect like INDIAN Cricket team does.
I Would make people pass in exams and will
ensure that none of us will be unhappy.
I Would give wealth to POOR and PUNISH rich
people who have wasted food.
I Would make life on mars so that people would
not be struggling of areas.
I Would make people understand the ACCESS OF
TECHNOLOGY is BAD.
I Would give curse to people who gamble and
would make children make Children RESPECT
THEIR ELDERS.
I Would make the rule that that there would be NO
WAR IN THE WORLD.
I Would make peace and funning the RADIANT
WORLD I Would made.
This topic doesn't mean I don't respect Lord
Vishnu.

A Study On Customer Satisfaction Towards Dairy Milk Chocolate in Arumbakkam City.

ABSTRACT :

This study is to find out the satisfaction level of the Dairy Milk product among the customer. The study mainly concentrated on general price level, quality and customer expectation overall satisfaction about DAIRY MILK, general awareness and customer preferences of DAIRY MILK. Usually, chocolates will be preferred by all.

Keywords: Dairy Milk Chocolate, Customer Satisfaction, Brand Loyalty, Awareness about chocolate.

INTRODUCTION

The new milk chocolate was introduced to the British market in 1905 and, with its unique flavour and texture, quickly became the market leader. Milk chocolate was first made by Cadbury in 1897 by blending milk powder with the basic chocolate ingredients of cocoa butter, cocoa mass and sugar. By today's standards the chocolate wasn't particularly good - it was very coarse and dry and neither sweet nor milky enough. At that time, the Swiss dominate the milk chocolate market with a product of superior taste and texture produced by Daniel Peters of Vevey, using condensed milk rather than milk powder. In the early 1900s, George Cadbury Junior and experts at Bournville took on the Swiss, researching new recipes and production methods. By June 1904, the recipe was perfected and a delicious rich and creamy new milk chocolate was ready for production.

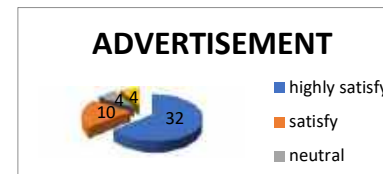

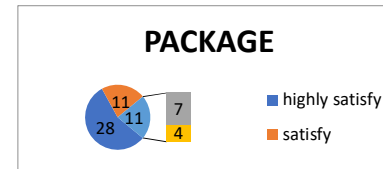

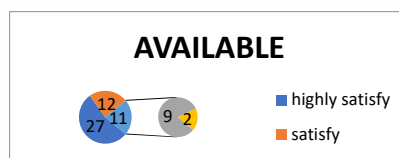

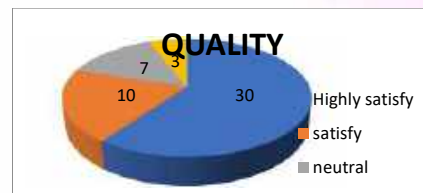

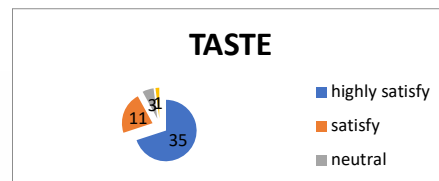

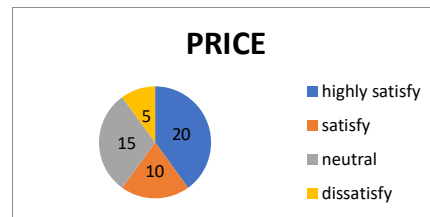

RESEARCHING METHODOLOGY

Researcher adopted the descriptive research for the study. Research design is the basis of defining the research problem. The preparation of the design of the project is popularly known as research design. It was used in primary data was collected directly from the faculty through the

questionnaire method. The probability Sample techniques are used to Simple random sampling and the sample size is 50 in this study.

OBJECTIVE

- ❖ To study the satisfaction level of customers towards dairymilk.
- ❖ To satisfy the customer's taste towards dairy milk
- ❖ To study the brand loyalty of the customer.
- ❖ To study the awareness about the dairy milk product

PARTICULARS	DISSATISFY	NO OPINION	SATISFY	HIGHLY SATISFY	TOTAL
Dissatisfy	0	0	0	2	2
No opinion	2	1	3	4	10
Satisfy	2	5	10	9	26
Highly satisfy	2	1	2	7	12
Total	6	7	15	22	50

Hypothesis:

H_0 = there is no relationship between price and taste.

H_1 = there is relationship between price and taste.

CHI-SQUARE TEST

PARTICULARS	OBSERVED	EXPECTED	RESIDUAL VALUE	$(O-E)^2$
Dissatisfy	2	12.5	-10.5	110.25
No opinion	10	12.5	-2.5	6.25

Satisfied	26	12.5	13.5	182.25
Highly satisfied	12	12.5	-0.5	0.25
Total	50			299

INFERENCE:

The above table resulted that the calculated value is greater than the table value ($23.92 > 7.815$). Thus the H_1 results there is a relationship between price & taste.

FINDINGS:

- It is understood that 20% of the respondents are satisfy in price of dairy milk.
- It is described that 30% of the respondents are No opinion in quality of dairy milk
- It is observed that 35% of the respondents are highly satisfy in taste of dairy milk
- It is revealed that 27% of the respondents are satisfy in available of dairy milk
- It is estimated that 28% of the respondents are satisfy in package of dairy milk
- It is identified that 32% of the respondents are highly satisfied in advertisement of dairy milk

SUGGESTION:

The company should improve their taste among the product. The second one they have to improve there availability of the product. They should check after there quality of the product. Package and Advertisement must be improve to gain more customers. Atlast the price of the product should be satisfy the customer's income.

CONCLUSION:

This project helps myself to improve more knowledge about Dairy Milk. I have analysed and depicted that the consumers have huge preference in purchasing Dairy milk.

IS YOUTUBE A GOOD CAREER?

Good Day everyone!! I am Surendar of 1st BCA , Do you guys think the above headline(question) is relevant ? I think so ,YES! IN this article ,let's have a deeper look about it !

All of us wish to have a job where there were no rules, and you could let your imagination run wild and free?

Well, there is a perfect way to fulfil such a dream: **YouTube**

YouTube – sounds familiar, right? It is one of the leading social media platforms . A platform that provides you with the golden opportunity to 'make it big', show the world your concealed creative side and express your opinions at a global level.

There are thousands of Indian YouTubers and YouTube channels that rule the Internet – PEWDIEPIE ,MR BEAST ,MADAN GOWRI, LOGAN PAUL , to name a few.

Can You Really Build a Career Through YouTube?

Yes, why not? YouTubing is one of the most upcoming and promising careers now a days . It is a field that offers, the ability to express yourself, opportunities to showcase your creativity, and a shot at earning popularity and fame.

While it may not be a full-time career option right off , but over time you can make it your profession like the many other YouTubers before you.

There are several ways you can earn money as a YouTuber. Some of them are

- **Becoming a YouTube Partner and Monetizing Videos:** After you have established your channel and have a decent amount of subscribers, you'll get an option to become a partner with YouTube. This will enable you to earn revenue by allowing YouTube to add

advertisements before and during your videos. So every time a viewer views the advertisement featured on your video, you earn a certain amount of money.

- **Collaborating with Brands:** When you have a good fan base and a net market value, brands will offer you to collaborate with them to feature their products in your videos. In exchange, you will get a fee and some added benefits. You can use your image and persuasion skills to your advantage, so that both you and the brand benefit.
- **Selling Merchandise:** It is also common for YouTubers to collaborate with brands to come up with their own line of merchandise. This includes T-shirts, pens, makeup and beauty products, clothing lines, etc. This is a great way to promote yourself as a brand while simultaneously generating revenue

After reading these ,many of us have one question in our mind?

How do You Start A Career as a Youtuber?

Creating a channel and making it successful would require a lot of hard work and perseverance your part. Making a career out of YouTube is not about coming up with a single viral video and getting shot up to fame, but don't get disappointed, it's hard ,not a impossible one to do!

LET ME GIVE YOU SEVEN MANTRAS TO GET SUCCESS ON YOUTUBE!

1. CHOOSE A NICHE (GENRE) OF YOUR CHANNEL.
2. TRY NEW THINGS
3. KNOW YOUR AUDIENCE.
4. MAKE A SIMPLE PLAN.
5. START MAKING VIDEOS WITH WHAT YOU HAVE.
6. UPLOAD VIDEOS CONSISTENTLY .
7. DON'T GIVE UP!

THESE STEPS ARE ENOUGH TO START GUYS! NOT MORE THAN THESE ARE REQUIRED! YOU WILL LEARN SO MUCH IN THE JOURNEY!

I HOPE ! YOU GUYS FEEL THIS ARTICLE USEFUL !THANK YOU!

SPUTNIK V

Coronavirus

Coronavirus disease 2019 (COVID-19) is defined as illness caused by a novel coronavirus called severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2; formerly called 2019-nCoV), which was first identified amid an outbreak of respiratory illness cases in Wuhan City, Hubei Province, China. It was initially reported to the World Health Organization(WHO) on December 31,2019. On January 30,2020, the WHO declared the COVID-19 outbreak a global health emergency.In India ,the first case of COVID-19 was reported on 30 January 2020. India currently has the largest number of confirmed cases in Asia. As of May 2021, India has the second highest number of confirmed cases in the world (after the United States) with nearly 20million reported cases of COVID-19 infection and 218,959 deaths as of 3 May 2021.

COVID-19 vaccination in India

India began administration of COVID-19 vaccines on 16 January 2021. As of 3rd May 2021, India has administered 158,932,921 doses overall, including first and second dose of the currently-approved vaccines. Two vaccines received approval for emergency use in India at the onset of the program, including *Covishield* (a version of the *Oxford-AstraZeneca* vaccine manufactured by the *Serum Institute of India*), and *Covaxin* (developed by *Bharat Biotech*). In April 2021, *Sputnik V* was approved as a third vaccine, with deployment expected to begin by late-May 2021.

So, What is Sputnik V?

In August 2020,Russia's President Vladimir Putin Surprised the world by approving its first domestically developed COVID-19 vaccine, and has a name intentionally invoking the space race of the 1950s. By the time the WHO declared COVID-19 a pandemic, in March 2020, The Gamaleya National Center of Epidemiology and Microbiology in Moscow was already working on a prototype of Sputnik V, funded by the Russian Direct Investment Fund(RDIF), the country's sovereign wealth fund.

Gamaleya researchers used common cold viruses in their vaccine prototype. Notably, they opted for two different adenovirus vectors (rAd26 and rAd5) delivered separately in a first and second dose,21 days apart. Using the same adenovirus for the two doses could lead to the body developing an immune response against the vector and destroying it when the second dose is administered.To make the vaccine , the adenoviruses are combined with the SARS-CoV-2 spike protein, which prompts the body to make an immune response to it.

Is this Sputnik V vaccine safe and effective?

Phase I and Phase II results, on 76 participants of an open, non-randomised trial, were published in the *Lancet* in September. According to the paper, all participants developed SARS-CoV-2 antibodies. No serious adverse events were detected. Most adverse effects were mild, with just over half experiencing pain at the injection site.

Interim Phase III data were published in early February 2021. The randomised, double blind, placebo controlled trial included nearly 22,000 adults aged 18 years or older recruited through 25 hospitals and clinics in Moscow between 7 September and 24 November 2020.Each participant received either two doses of vaccine, or a placebo, which were administered 21 days apart.

Interim results (based on data so far from 14,964 participants in the vaccine group and 4902 in the placebo group) indicate that the vaccine is 91.6% effective,based on its ability to prevent symptomatic infection. There were no cases of moderate or severe

COVID-19 in the vaccinated group atleast 21 days following the first dose. Some 94% of reported side effects were very mild (grade 1). Four deaths recorded during the study were found not to be related to the vaccine.

Is Russia using the vaccine for their citizens?

On 2nd December, the same day the UK approved the Pfizer BioNTech vaccine for use, Putin declared that mass vaccination using Sputnik V, provided free to citizens, was to begin within days. Infact, administration of Sputnik V began even earlier employees of Gamaleya were first people to receive prototype doses in the spring of 2020 before phase I and II trials took place in the summer.

The first members of the public to receive a dose of Sputnik V were school and healthcare workers. As of February, Russia had injected more than two million people with at least one dose of Sputnik V, according to the health Minister Mikhail Murashko.

Other countries using Sputnik V:

Russia has gone to great lengths to promote Sputnik V beyond its borders in a vaccine diplomacy drive, promising that it will cost less than \$10 per dose for international buyers. The RDIF says it signed contracts with more than a dozen manufacturers in 10 countries to produce a total of 1.4 billion doses. At the time of writing, 29 countries besides Russia had approved Sputnik V for emergency use. That includes Hungary, the only EU state to do to date.

Sputnik V vaccine in India

India received its first lot of Sputnik V vaccine on 1st May 2021. The first batch of Russia-developed vaccine was delivered in Hyderabad as India battles a vicious second wave of COVID-19 infections. "On 1st May 2021 India received 1,50,000 doses of Sputnik V vaccine here in Hyderabad. The vaccine will be available in a few weeks after it has gone through statutory clearances. The price will also be announced then", said Deepak Sapra of Dr.Reddy's Laboratories.

Dr.Reddy's has partnered with the Russian Direct Investment Fund (RDIF) to supply first 250 million doses of Sputnik V in India.

Sputnik V vaccine doses arrived on a day India started the process of vaccinating all citizens above 18 years of age against COVID-19. But the process is postponed due to the election results. The country has so far offered two vaccines - **Covishield** and **Covaxin** to us.

"The efficacy of the Sputnik V in among the highest in the world, and this vaccine will also be effective against new strains of COVID-19", Russian Ambassador to India Nikolay Kudashev said on Saturday 1 May 2021, adding that "its local production is about to soon and is planned to be gradually increased upto 850 million per year".

Stay Home, Stay Safe ,

Lets get vaccinated, and

Fight against COVID-19.

CYBER WAR

Introduction:

> Cyberwar, also spelled cyber war, also called cyberwarfare or cyber warfare, war conducted in and from computers and the networks connecting them, waged by states or their proxies against other states.

> Cyberwar is usually waged against government and military networks in order to disrupt, destroy, or deny their use.

> Cyberwar should not be confused with the terrorist use of cyberspace or with cyberespionage or cybercrime.

> Even though similar tactics are used in all four types of activities, it is a misinterpretation to define them all as cyberwar.

> Some states that have engaged in cyberwar may also have engaged in disruptive activities such as cyberespionage, but such activities in themselves do not constitute cyberwar.

> Computers and the networks that connect them are collectively known as the domain of cyberspace.

> One of the first references to the term cyberwar can be found in "Cyberwar Is Coming!", a landmark article by John Arquilla and David Ronfeldt, two researchers for the RAND Corporation, published in 1993 in the journal Comparative Strategy.

Attacks in cyberspace:

□ The cyberspace domain is composed of three layers.

□ The first is the physical layer, including hardware, cables, satellites, and other equipment. Without this physical layer, the other layers cannot function.

□ The second is the syntactic layer, which includes the software providing the operating instructions for the physical equipment.

□ The third is the semantic layer and involves human interaction with the information generated by computers and the way that information is perceived and interpreted by its user.

The challenges of cyber warfare:

□ No physical boundaries: The world's network, referred to by many as "cyberspace," has no physical boundaries. The enemy doesn't have to be anation, just a group of like-minded individuals connected by the web in chat rooms

□ No physical present: In cyber warfare, attackers don't have to necessarily destroy the systems but just disrupt them. They don't have to physically enter the organization or a nation state; they merely have to access the systems.

□ Difficult to detect and hard to track: In the offensive mode, we may never even know who the attackers were; disinformation flow is very easy. If the attack is well planned and coordinated it is hard to find out where it came from and who is responsible for it.

Incident reports. Example of incidents reports:

□ The Code Red worm. Attack from June to November 2001, infected more than 350,000 hosts in 24 hours, caused a lot of traffic, clogging the bandwidth and slow downs on the Internet, affects computers running IIS Server (i.e. Win2000OS).

□ W32.Netsky.D@mm is a mass-mailing worm that is a variant of W32.Netsky.C@mm. The worm scans drives C through Z for email addresses and sends it to those that are found. The Subject, Body, and Attachment names vary. The attachment will have a .pie file extension.

□ WannaCry was a ransomware attack that spread rapidly in May of 2017. Like all ransomware, it took over infected computers and encrypted the contents of their hard drives, then demanded a payment in Bitcoin in order to decrypt them. The malware took particular root in computers at facilities run by the United Kingdom's NHS.

Conclusion:

□ The threat of cyber warfare is real. The low cost of mounting the attacks, has made defence a very challenging task. This situation is getting worse with the rapid proliferation of information technology and know-how. As more computers are connected to networks as the need for connectivity increases, vulnerability is also increasing.

□ I hope this article would provide readers with a better understanding of cyber warfare.

MESSAGE FROM EDITORIAL BOARD

MGC is an incarnation of self-respect, love, affection, responsibility and compassion which put the students into a “State of flow”. Our college recognises, appreciates, applause and fosters the blend of sensibilities in a student changing a negative outlook from the drab and demoralised to bright and expectant. Dedicated, discipline, smart, strong, eager to change the world these are a few words that describe the students of our college.

The purpose of GREGORIAN 2021 is to inform, encourage, inspire and entertain a diverse readership- which includes alumni, faculty, students, parents and well-wishers of MGC, by presenting an intimate, timely and honest portrait of the college – it’s people, programmes, challenges and mission. GREGORIAN 2021 expose our college spirit through the collective actions, thoughts and aspirations. All these will spur a higher growth in students. The reflection of the students' activities and achievements is the epitome of the magazine. We hope that reading Gregorian will encourage you to have an impact on others. We may never know how much our words or actions influence the lives of those around us but we can choose ourselves to be a POSITIVE influence on others in a way that could change the rest of their lives.

BE POSITIVE AND SPREAD POSITIVITY
